

Professional Services

June 2003, Volume 1, Issue 1

Need help with personal shopping for professional services support? Try our new business line, Assisted Professional Services, for personal shopping and value-added support on the Professional Engineering Services (PES), the Logistics (LOGWORLD), and the Management, Organizational and Business Improvement Services (MOBIS) contracts. These Professional Services contracts are a Federal Supply Services (FSS), Multiple Award Schedule with many industry partners.

Professional Engineering Services (PES) contracts

The PES contract is a Federal Supply Services (FSS), Multiple Award Schedule with over 550 industry partners. PES covers technical areas such as mechanical, electrical, civil, and chemical engineering disciplines, plus numerous sub-disciplines such as aerospace, nuclear, bioengineering, and more.

Look to this schedule for all phases of your engineering needs including:

- Acquisition and life cycle management
- Concept development and requirements analysis
- Engineering and integration
- Integrated logistics support
- Strategic planning
- System design
- Test and evaluation

Services not included:

Construction and Architect-Engineering Services

Management, Organizational and Business Improvement Services (MOBIS) contracts

The MOBIS contract is a Federal Supply Services (FSS), Multiple Award Schedule with over 1000 industry partners. MOBIS covers a wide range of management and organizational effectiveness improvement services to help you comply with governmental mandates such as the Government Performance and Results Act (GPRA) and OMB Circular A-76 (outsourcing reviews).

GSA FTS Value-Added Services

FTS performs the following value-added services for a fee in the range of 3-5%, depending on the complexity of the requirement:

- Provides consultation services in developing and locating your required service
- Finds the best value for your requirement
- Processes the order quickly
- Accepts a variety of federal agency funding documents
- Pays the industry partner invoices
- Provides Contracting expertise to fulfill requirements of the FAR
- Assist you in assuring your Professional Services requirements meet various federal compliance regulations
- Manage vendor performance on your requirement

Getting Started

We need three documents and associated actions to get your requests in motion. The documents are:

1. Statement of Work

A document describing the services needed. We'll assist you in getting your requirements into a Statement of Work.

2. Memorandum of Understanding

A signed interagency Memorandum of Understanding

3. Funding Document
